

**AMATID** – “Advanced Material Identification in Security and Quality Control” is a CIR-CE Innovation Project. The RTDI funding programme CIR-CE – “Cooperation in Innovation and Research with Central and Eastern Europe” has been developed and implemented by FFG on behalf of the Federal Ministry for Economic Affairs and Labour (BMWA) and promotes co-operations between innovative Austrian companies and innovative companies from Central- and Eastern Europe.

**AMATID** is a joint project between Austrian and Romanian companies. Main goal of the project is the development and application of advanced techniques for material identification in the field of security screening and industrial non-destructive testing by improving and exploiting dual-energy X-ray radioscopy/tomography and THz-spectroscopy.

The project consortium comprises 5 members, of which are 2 Romanian and 3 Austrian companies:

*Accent Pro 2000 s.r.l. (RO)*

*Mira Telecom s.r.l. (RO)*

*FEMTOLASERS Produktions GmbH (AUT)*

*KUVAG GmbH & Co. KG (AUT)*

*RECENDT GmbH (AUT)*

## Key Data:

*Start:* 01.01.2008

*Duration:* 24 months

*Funding:* CIR-CE programme (BMWA)

*Project co-ordination:* RECENDT GmbH
